

OFFICIAL PUBLICATION OF THE Minnesota Board of Architecture, Engineering, Land Surveying, Landscape Architecture, Geoscience & Interior Design

Letter from the Chair

Mary Deeg, CID

As Chair of the Minnesota AESLAGID Board, I am proud and appreciative of the mutual

respect exercised by our diverse Board members and the outstanding work efforts by Board staff. Board members are active in each of the professional organizations, higher education institutions and communities speaking as part of outreach events. This is an exciting and dynamic time in our professional disciplines. In the State of Minnesota licensure and certifications are on the rise along with increased examination passing scores as reported by NCARB, NCEES, CLARB, ASBOG, CSSE and NCIDQ. Board members are actively reviewing new applications and our state is gaining quality professionals offering invaluable services.

The Board is making a difference in planning for the future. Your 21-member

AESLAGID Board is actively engaged in developing a Strategic Plan centered on our mission to ensure quality, strength and efficiencies through regulation of Architecture, Engineering, Land Surveying, Landscape Architecture, Geosciences and Interior Design professionals providing service in the State of Minnesota. Flowing from that plan, our goals for this year include:

- greater effectiveness in communications, technologies, outreach, and
- developing proactive approaches to serving our licensees and certificate holders.

As we begin launching our Strategic Plan in the upcoming months, look for future updates in this newsletter and via our website—visit us there often!

Finally, I would encourage you all to do your utmost to further your professions. Here are a few simple recommendations:

Rule package moves closer to final adoption

The Board's rule package containing housekeeping updates and new rules which expedite the process by which military personnel may receive a license is moving to the next step toward final adoption.

The Board published the "Dual Notice of Intent to Adopt Rules" in the June 1,

2015 issue of the State Register and received seven comments with four requests for a public hearing during the comment period. The Board did not hold a public hearing because less than 25 requests were received.

At its meeting on August 6, the Board voted on a formal resolution to adopt

the rules. Final approvals from the Governor's Office, the Office of Administrative Hearings, the Revisor's Office and the Secretary of State are also required prior to final publication in the State Register. The rules will be effective five days after final publication.

Statute changes for land surveyors, engineers now in effect

Through two separate bills, both moving through the legislature this spring, changes were made to statutes affecting engineers and land surveyors:

Statute Changes: Land Surveyors (LS)

On April 21 Governor Mark Dayton signed into law a bill streamlining and simplifying statutes and making technical and conforming changes related to land surveying in sections 160.15, 358.47, 381.12, 389.09, and 505-508. These changes were effective August 1, 2015.

The chief authors of the bill were Rep. Tim O'Driscoll (R-Sartell) and Sen. Jim Carlson (DFL-Eagan).

The Minnesota Society of Professional Surveyors (MSPS) and The Minnesota Association of County Surveyors (MACS) worked to forward the bills, with Washington County Surveyor Mike Welling and former AELSLAGID Board member Lisa Hanni among those testifying on behalf of the bill.

The Session Law posting of the LS statutes as revised can be found on the State of Minnesota website using this shortcut: <http://bit.ly/1D0Fwse>.

Statute Changes: Professional Engineers (PE)

On May 8th Governor Mark Dayton signed into law a bill clarifying that no additional license or certification will be required for licensed PEs to do work already covered under the scope of the Professional Engineer license in Minnesota. These changes were effective August 1, 2015.

The chief authors of the bill were Rep. Marion O'Neill (R-Maple Lake) and Sen. Kevin Dahle (DFL-Northfield).

The Minnesota Society of Professional Engineers (MnSPE) developed the language for the statute change. On the bills' passage into law, MnSPE Executive Director Mary Detloff noted "This represents the culmination of about four years of work by a number of people."

The Session Law posting of the PE statutes as revised can be found on the State of Minnesota website using this shortcut: <http://bit.ly/1HNVZFM>.

Beverly Hauschild-Baron presented Certificate of Recognition from Governor Dayton

"In recognition of 38 years of excellent service to the State of Minnesota" reads in part the inscription on a Certificate of Recognition signed by Governor Mark Dayton and presented to Beverly Hauschild-Baron, Hon. AIA, this May at an AIA Minnesota event.

An active and influential leader in advancing the Architect profession in both Minnesota and across the nation, Hauschild-Baron was presented the award by current Board member Paul May, AIA, and Executive Director Doreen Frost. ■

2015/16 executive team elected, committees assigned

Meet the new executive committee (left to right): Vice Chair Bob Gunderson, LA; Secretary Dennis Martenson, PE; Chair Mary Deeg, CID; Treasurer Peter Miller, PSS; Immediate Past Chair Carl Peterson, CPA, PM.

Each year in May, the Board nominates a new Executive Committee. Interested members may ask to be put on the ballot. Nominations may also be made from the floor prior to the vote. Elected members then serve a one-year term.

The 2015 ballot of candidates were all elected by acclamation after a motion from the floor following a final call for nominations. That new Executive Committee is:

- Chair: Mary Deeg, CID
- Vice Chair: Bob Gunderson, LA
- Secretary: Dennis Martenson, PE
- Treasurer: Peter Miller, PSS

Current President Mary Deeg, CID, presents outgoing President Carl Peterson, CPA, PM, with a plaque recognizing his service.

Carl Peterson, CPA, PM, will serve on the committee as Immediate Past Chair.

The first duty of the Executive Committee is to appoint chairs to the other committees. A complete list of the committee assignments and appointed chairs can be found at right.

Rule package update continued from page 1

Many of the comments received by the Board were in regard to a concern that the Board was lowering the standard for licensure for military personnel. Please be assured that this is not the case. Individuals must show documentation of an unexpired license in another

jurisdiction before being issued a temporary military license or certificate and must complete the full application for licensure documenting the education, examination and experience requirements before a license or certificate is issued. Individuals who do not already hold a license in another jurisdiction are not eligible for a temporary military license.

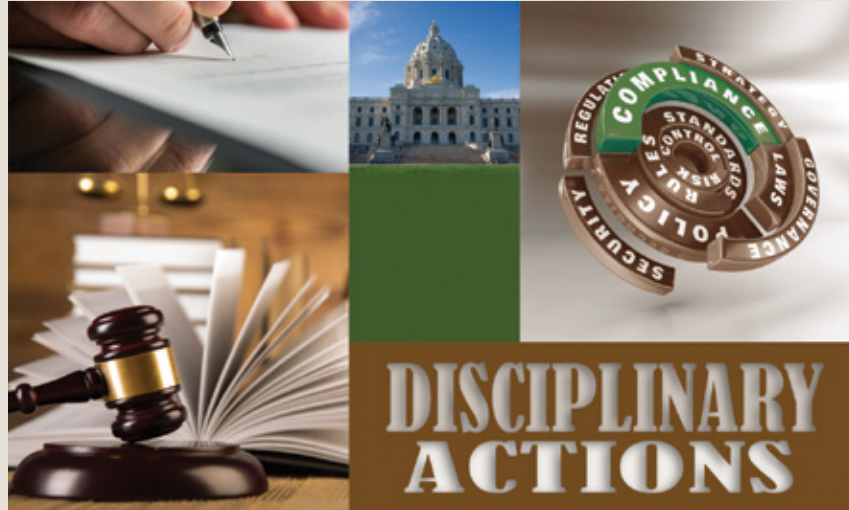

Updates are posted on the Board's website at mn.gov/aelslagid/rulemaking.html as they become available. To be added to the Board's rulemaking mailing list, please email Andrea Barker at andrea.barker@state.mn.us. ■

Disciplinary Actions

Disclaimer: Every effort was made to ensure that the following information is correct; however, it should not be relied upon without verification from the Board office. Note that the names of companies and individuals listed may be similar to those of parties who have not had enforcement actions taken against them.

Disciplinary orders are public data. You may view orders on the Board website or contact the Board to request copies.

The following are summaries of disciplinary actions taken since the last newsletter. Full orders are posted at mn.gov/aelslagid/enforcement.html.

In the Matter of Dennis P. McComas, PG License #30503

Facts: On May 18, 2015, the Board received a Notice of License Revocation for debt from the Minnesota Department of Revenue. Under Minnesota Statutes section 270C.72 (2014), the Board must revoke Mr. McComas's license.

Enforcement Action: On May 21, 2015, the Board issued an Order for Revocation. Mr. McComas's license is REVOKED. The revocation shall remain in effect until the Board receives a Tax Clearance Certificate from the Minnesota Department of Revenue.

Facts: On May 28, 2015, the Board received a Clearance Certificate from the Department of Revenue concerning Mr. McComas's debt.

Enforcement Action: The Board issued an Order to Rescind Revocation of Mr. McComas's license effect on May 28, 2015. Mr. McComas's license is CURRENT.

In the matter of Richard C. Larson, PE License #8803

Facts: Mr. Larson was first issued a Professional Engineer license on August 8, 1968.

- Mr. Larson was hired to prepare construction plans for the Ogilvie Land Development Access Driveway Project in Kanabec County, Minnesota, using waste light weight tire chips as fill in two private driveways. He prepared, signed and sealed the drawings for the project on July 28, 2010.
- Minnikka Properties LLC (Minnikka) is a corporation owned and managed by Monte

Niemi. Monte Niemi also owns First State Tire Disposal (FSTD), a waste-tire processing facility that sells shredded tires for use in construction projects. The two driveways in the construction plans prepared by Mr. Larson, at FSTD's request, are located on Minnikka property.

- According to the Facts and Decision in a Minnesota Court of Appeals Opinion dated July 29, 2013, the Ogilvie Land Development Access Driveway Project for which Mr. Larson prepared, signed and certified the plans, did not conform to the Minnesota Pollution Control Agency (MPCA) definition of the beneficial use of tire shreds. In its decision, the Court of Appeals stated: "Minnikka used waste tires in quantities that exceeded accepted engineering or commercial standards and failed to obtain a case-specific determination of beneficial use."
- Mr. Larson was negligent in performing services as a Professional Engineer on the project plans he certified. He knew or should have known that this was a unique project and that it would have been prudent professional practice to utilize a special MPCA process, applying for a "case-specific beneficial use determination" to obtain a site specific permit from the MPCA. Mr. Larson never advised the client (Minnikka)

to apply for a "case-specific beneficial use determination."

Enforcement Action: On May 21, 2015, the Board issued a Stipulation and Order. Mr. Larson is reprimanded for the foregoing conduct and ordered to pay a civil penalty of \$5,000 to the Board.

In the matter of Jeffrey Peter Agnes, Architect License #19452

Facts: Mr. Agnes was first licensed on November 29, 1988. His license was expired from July 1, 2014, until February 19, 2015, at which time he reinstated it. At the time of this order, his license is current with an expiration of June 30, 2016.

On February 23, 2015, Mr. Agnes self-reported that he held himself out as a Minnesota Architect by using the title of "AIA" on his business card, email and letterhead salutations. Additionally, he used the title of "Licensed Architect" on documents he prepared

and/or signed during the time his license was expired. Immediately upon discovery of his license expiration, Mr. Agnes took significant corrective action by notifying the Board.

Enforcement Action: On June 25, 2015, the Board issued a Stipulation and Order. Mr. Agnes is reprimanded for the foregoing conduct and is ordered to pay a civil penalty of \$2,000 to the Board.

In the Matter of Mark W. Schumacher, PE License #13654

Facts: On July 13, 2015, the Board received a Notice of License Revocation for debt from the Minnesota Department of Revenue. Under Minnesota Statutes section 270C.72 (2014), the Board must revoke Mr. Schumacher's license.

Enforcement Action: On July 20, 2015, the Board issued an Order for Revocation. Mr. Schumacher's license is REVOKED. The revocation shall remain in effect until the Board receives a Tax Clearance Certificate from the Minnesota Department of Revenue.

Your role in protecting the public—and the profession

The mission of the AELSLAGID Board is to “protect the health, safety, and welfare of Minnesotans and act in the best interests of the public.”

You probably know this. You’ve probably seen and read that mission while on the Board website looking for licensing, renewal or other information.

What you may *not* know is that the most important resource the Board has in fulfilling that mission is you. Yes, you.

While the Board can set and oversee the education, examination and experience requirements of those it licenses, it can’t observe those licensees “out in the field.” The Board relies on you—that educated, licensed, and ethical professional out practicing in your area of expertise—to advise us when you encounter unprofessional, unethical, or unlicensed activities.

Invaluable Eyes and Ears

The overwhelming majority of professionals licensed by the AELSLAGID Board are a credit to their industries and perform valuable work for the public. You are a witness to their good work, whether within your own company, as a competitor, or as a complementary professional fulfilling a function on a joint project.

Conversely, you are also a witness to work or processes that *don’t* meet the requirements you know licensees must uphold. In the course of your activities, you may even find work performed by an unlicensed, unqualified individual.

In addition to you, our licensees, we also rely on colleagues at the Minnesota Department of Labor and Industry Construction Codes and Licensing Division. Building officials are invaluable eyes and ears in the field, and share a similar

mission, one that “ensure[s] Minnesota’s work and living environments are equitable, healthy, and safe.”

An Obligation to the Public

It’s understandable that you might have reservations regarding filing a complaint against another individual or firm. But it’s important to remember that this

A licensee, when questioned concerning any alleged violation on the part of another person by any member or authorized representative of the board commissioned or delegated to conduct an official inquiry, shall neither fail nor refuse to divulge such information as the licensee may have relative thereto.”

A Duty to the Profession

Finally, it is worth noting that the best interests of the profession also require the exposure of those who do not uphold those statutes or rules or who claim to act as a licensed professional when they are not. Those individuals water down the value of what you have worked so hard to achieve and to maintain: your education, your experience, and your licensure. They can create distrust of

the profession on the part of the public, potentially damaging your livelihood and that of all those like you who operate with a high level of professionalism and ethics.

Filing a complaint is not a step taken lightly—but it is a step the public relies on you to take, when circumstances require. ■

**Protecting the public is a joint responsibility.
It’s in all of our hands.**

is also part of your responsibility as a licensed professional.

MN Rule 1805.0600 advises:

“A licensee who has knowledge or reasonable grounds for believing that another member of the profession has violated any statute or rule regulating the practice of the profession shall have the duty of presenting such information to the board.

Information on how to file a complaint and the steps involved are available on the Board website: mn.gov/aelslagid/complaints.html. Download a brochure: mn.gov/aelslagid/Complaint_Brochure.pdf.

You may also contact the investigator with questions: 651-757-1510 • lynette.m.dufresne@state.mn.us.

Changes, awards, elections at NCARB business meeting

Board members attended the June Annual Business Meeting for the National Council of Architectural Registration Boards (NCARB) and provided the following report:

IDP Program

As discussed at the June Annual Business Meeting, as of July 1 NCARB implemented changes to its Internship Development Program (IDP). Elective hours have been eliminated; and a total of 3,740 hours defined by 17 experience areas now constitutes the program requirement. The newly implemented IDP requirements satisfy current Minnesota requirements regarding qualifying experience.

Resolutions

The following resolutions were voted on at NCARB:

- Resolution 2015-1 B Revision of the Alternatives to the Education and Experience Requirements for Certification (Amended)—Failed

- Resolution 2015-2 Revision of the Requirements for Certification of Foreign Architects—Passed
- Resolution 2015-3 Bylaws Amendment: Modifications to the Qualifications of Public Director on Council Board of Directors (Amended)—Passed as Amended

Former AELSLAGID Board Chair Jim O'Brien, FAIA, received NCARB's Presidential Medal for Distinguished Service at the June Annual Meeting of the association. He is pictured on the right receiving the award from NCARB President Dale McKinney, FAIA. Photo Credit: NCARB

In all instances, the Board voted with the prevailing side. The full language of the resolutions can be found at NCARB.org.

Region 4 Election

Board member Terry Groshong, AIA, (right) was elected to the Vice-Chair position for NCARB Region 4.

New ARE Guidelines

NCARB released new Architect Registration Examination (ARE) Guidelines. Included, among other items, are changes to medical accommodations and to language regarding test introductory times. The revised guidelines became effective July 1, 2015.

A copy of the guidelines are currently available on the AELSLAGID homepage. ■

"Can't you just send me that electronically?"

The Board office occasionally hears the question "Why do you send information out by mail (such as newsletters)? Why don't you do everything electronically?"

Much information is provided or available electronically. A PDF version of the newsletter as well as forms and notices are on the Board website. But for a mixture of reasons—security, privacy, and law—some print/mail communication remains necessary.

By rule, licensees are required to provide their street mailing address and phone number. By statute and rule, the Board uses that street address information for official communications—for instance, notice of proposed changes to laws affecting your licensure.

Only you can ask to have your "address of record" changed in our system. Address corrections received from

DID YOU KNOW... THIS OBLIGATION OF YOUR LICENSURE/CERTIFICATION?

Rule 1800.0120 subpart 1A:
You must **"provide the board a current street address and telephone number...a post office box address is not sufficient."** You **"must notify the board in writing of any change in address within 30 days of the change."**

returned mail, such as the newsletter, can't be substituted for the last address you provided us. However, those corrections do provide us with a secondary means of attempting to reach you regarding matters of urgency (such as disciplinary actions), if you failed to provide a new address after a move.

Another factor behind the use of print communications is that in Minnesota, by law, email addresses are *private* not public data. Given this combination of legal requirements and privacy concerns, the Board has not yet made providing an email address part of the information current and prospective licensees are *required* to provide—and required to *maintain*.

In our continuing efforts to improve the timeliness and accessibility of communications to licensees and certificate holders, the Board does expect to implement social media and supplemental email communication in the near future. To these you would voluntarily subscribe and directly manage your subscription account.

But even then—as now—be sure to notify us whenever your mailing address needs to be updated. "It's the law." ■

Newly licensed / certified

The members and staff of the Minnesota Board of AELSLAGID welcomed the following as licensed or certified professionals between January 1 and June 18, 2015.* Our congratulations and best wishes.

Letter from the Chair

continued from page 1

Get involved. As professionals of this great State, I encourage you to share your ideas and leadership with your professional organizations. Our professions grow stronger by your involvement, knowledge and experience. Consider applying for a Board position representing your area of professional expertise. Information on that process can be found on the "Board Members" webpage. I also invite you to experience first-hand how your Board functions by attending a future meeting. Visit the "Board Meeting Schedule" webpage or see the calendar at right.

Pay it forward. Think back to when you first applied for your state license or certificate and the feeling of reaching the level of **professional** and what that status means. Your daily **professional** work and service is vital to the health, safety and welfare of the general public.

This is the foundation of your practice each and every day. How can we pay it forward? We have a motto: "Leave it better than how you found it."

Give back. Your knowledge shared among peers and particularly with aspiring professionals ensures sustained growth within your professions. Think

how you can lend advice and support to those seeking licensure and certification. Become part of mentoring our new leaders in the next generation.

On behalf of the Board, let me say how proud we are to volunteer our service to the State of Minnesota. We look forward to another year of sustained growth. ■

Calendar of Meetings

August-December

August

- 5 Complaint Committee - 12:30 p.m.
- 6 Board Meeting - 8:00 a.m.

September

- 10 Complaint Committee - 12:30 p.m.

October

- 9 Board Meeting - 8:00 a.m.

November

- 5 Complaint Committee - 9:30 a.m.

December

- TBD Complaint Committee
- 4 Board Meeting - 8:00 a.m.

Please consult the Board website for any changes to meeting dates or times.

Board meetings are open to the public, with the exception of Disciplinary/Complaint meetings or discussions as prescribed by Minnesota Statutes 13D.01 and Chapter 14.
